DEPARTMENT OF TRANSPORTATION

**Pennsylvania Department of Transportation District 8-0, SR 0272
(Reading Road) bridge replacement project**

The Pennsylvania Department of Transportation is in the preliminary engineering phase for the replacement of the SR 0272 (Reading Road) bridge over the Cocalico Creek. A single span bridge is proposed to replace the existing two-span bridge. The SR 0272 alignment will remain the same as existing. Reading Road at the bridge site will be closed during construction with a detour posted which will utilize state routes 322, 222, and 1040. The start of construction is anticipated to begin January 2011, and will take approximately two years to complete preliminary roadway plans for the project and the detour route will be available for viewing at the East Cocalico Township Municipal Building during business hours beginning 08/26/2009 through 11/30/2009. If you have any questions about this project, please contact

Mike Deiter, Project Manager
