The Warden reported that the project team met with the design firm GFT Inc. and Owner's Representative Team, CGL, to confirm that the current design is in line with the American Correctional Association (ACA) recommended standards. The LCCF yards' current design meets the area requirements. Additionally, the ACA does not require

both indoor and outdoor yards, but it does imply that the indoor yards are required. The current LCCF design of its yards goes beyond standard of ACA by providing exterior views, fresh air ventilation and year-round access.

Jason Perkowski, Power Interfaith, questioned if the yard design could blend heat and air conditioning along with fresh air. Mr. Devonshire responded that they are simulating outdoor weather without heat or air conditioning.

Commissioner Parsons reiterated that the board's purview is over the prison, therefore comments should be directed to items pertaining to the prison. He addressed the problematic language in calling ICE or any other law enforcement a "threat".
