

# COVID-19 Safety Guidelines for the Lancaster County Swimming Pool

---

***Please note:*** *These guidelines are subject to change as PA Department of Health and CDC guidelines are updated.*

1. Maintenance staff will be sanitizing the facility daily. Pool staff will be sanitizing “high touch” areas (sink and toilet handles, doorknobs, etc.) throughout the day.
2. Pool safety signs issued by the CDC in both [English](#) and [Spanish](#) will be posted throughout the Pool complex to provide patrons guidelines for using the Pool safely.
3. Patrons are expected to wear a mask when entering the Pool Complex, and at any location within the complex where 6’ social distancing cannot be maintained.

***Note:*** *Wearing masks in the water will be prohibited as they create a drowning risk.*

4. Shielding has been placed at the cash register and Pool Front Desk where staff most frequently interact with customers. Staff is expected to wear masks at the Front Desk and anywhere that 6’ social distancing cannot be maintained.
5. Per aquatic industry safety standards, lifeguards will not wear masks.
6. Restroom entrances and exits will be designated to create one-way traffic.
7. We will utilize the sound system at the Pool to frequently remind patrons of the safety guidelines.
