Commission Treatment Policy and  
Procedure Manual

CMCS #10  
Policy: Interim Services for PWID Needing  
**HIV & TB COUNSELING & EDUCATION SERVICES;**  
**Includes Listed Agencies**

Most Current Revision: 07/01/2021  
Effective Date: 07/01/2020

Page: 1 of 7

**I. Purpose:**

To establish a protocol for ensuring that interim services are made available to PERSONS WHO INJECT DRUGS (PWID).

**II. Procedure:**

It is the policy of LCDAC to ensure that PWID who have been screened, completed a level of care assessment, and who have been identified as needing treatment services are offered admission to the recommended level of care **immediately** following the assessment.

In the event that the PWID **cannot** be admitted **immediately**, LCDAC requires its contracted providers to arrange for interim services within 48 hours of the assessment.

The service provider **must** arrange for admission to the recommended treatment level of care **no later than 120 days** after the completion of the assessment.

Ongoing contact **must** occur with the PWID from the completion of the LoCA until admission into treatment regardless of whether interim services have been secured and/or whether or not engagement in said interim services occurs.

The provider should adhere to their own written protocols outlining the required time intervals for contact with the PWID until admission occurs.

Documentation of said contact shall be documented in the individual's file.

Interim Services are defined as services to reduce adverse health effects of substances, to promote the health of the individual, and to reduce the risk of transmission of a disease until the individual is admitted to a treatment program. The individuals file must document that interim services were provided or arranged.
