

County of Lancaster Request for ARPA Funding

Organization Borough of Strasburg **Date** 04/14/2022
Submitted By Steven Echternach **Authorized Signature** 
Email Address:  **Phone #:** 
Please attach any supporting documentation for consideration. Submission should be in PDF Format.

Project/Item Description	Phase #1 Quad #3 Stormwater/Water Infrastructure (see attached map) Phase # 2 Quad #4 Stormwater/Lead Mitigation (see attached map)
Estimated Cost – how cost was derived & provision of partner funds (who is providing, how much and show commitments).	3.3 million – Construction Materials Phase #1(2023) 185k – Engineering Phase #1 (2022) 3 million – Engineering/Construction Phase #2 (2024)
Which County ARPA Community-wide Benefit(s) does the project meet?	#1 Water Infrastructure #2 Clean Water (Stormwater)
Briefly explain how the project meets the County's guidelines.	These projects will address the aging and outdated infrastructure in our borough's water system and allow the borough to contribute to clean water by updating current, and creating new, stormwater facilities.
Why should this project be a priority and how will it help the County? Also, if this application is for more than one project, please identify each one, provide information and rank them in order of your priority.	<p>(1) Phase #1 Quad #3 - Funds provided would be used for stormwater improvements and watermain replacement, some lead, to improve our borough's infrastructure. Aging stormwater facilities would be rejuvenated and brought up to MS4 standards and new stormwater infrastructure would be created to better protect our historic borough. We would also undertake replacement of 2,500 feet of hundred-year-old watermain that is currently undersized.</p> <p>(2) Phase #2 Quad #4 - Funds provided would be used for stormwater improvements and lead mitigation to improve our borough's infrastructure. Aging stormwater facilities would be rejuvenated and brought up to MS4 standards and new stormwater infrastructure would be created to better protect our historic borough. Any known lead service connections/lines that have not been replaced to-date will be replaced.</p>
Will this project require ongoing expense (maintenance, updates) or frequent replacement? Are expenses already being incurred, if so, can they be reduced through this project?	Operations and management provided by Strasburg Borough and Strasburg Borough Authority
Project Timeline – start to finish, and when funding will be needed.	April 25, 2022 engineering and surveying will begin. Construction of Phase #1 Quad #3 beginning in 2023 as funding is available.
Are there other organizations a part of this project? If yes, please list them and their role, including funding. If not, explain why?	Borough of Strasburg – 237k in ARPA Funds Strasburg Borough Authority – cost of waterline - 1 million DCED – 1 million in ARPA Fund
