### Description of any video or electronic monitoring technology (including any relevant information about where cameras are placed, where the control room is, retention of video, etc.):

The facility has 258 cameras placed throughout the facility. These cameras include PTZ cameras and fixed cameras. The cameras provide adequate coverage of inmate housing areas, and inmate accessed areas. The cameras are viewed in the two control rooms. The cameras are monitored by the security staff who work in these areas. During the onsite audit, the monitors were examined, the views of the cameras do not show any areas that would cause an issue of cross-gender viewing.

Audit Findings

Audit Narrative

Pre-Onsite Audit Phase

Audit Planning and Logistics:

I had the opportunity to discuss the audit process and expectations of both parties with the Facility PREA Compliance Manager Alexandria Miller. We coordinated the dates for the onsite audits at the facility. During these conversations, we outlined an overall audit schedule and notified the facility of the estimated time of arrival on site.

Posting Notice of the Audit:

I forwarded the audit posting to the Facility PREA Compliance Manager on April 16, 2019. The posting included the dates of the audit, the purpose of the audit, my contact information, and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas, and all common areas. I verified the placement of the audit notices during the onsite portion of the audit during the facility tour and during the inmate and staff interviews. I did not receive any letters from staff nor inmates.

Review of Agency and Facility Policies, Procedures, and Supporting Documentation:

The Facility PREA Compliance Manager provided me with a flash drive containing all facility Policies and Procedures, as well as documentation that all Facility Policies and Procedures were practiced on a daily basis. They also provided me a completed PRE-Audit Questionnaire. The Policies, Procedures, and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

Outreach to Community Advocacy Organizations:

I contacted YWCA of Lancaster County, who provides victim advocacy. They knew of no issues at the facility.

Onsite Audit Phase

Site Review:

The onsite audit began on June 6, 2019, at 8:00 a.m. at which time I led a short in-briefing. In attendance were the following staff:

- Warden Cheryl Steberger
- Deputy Warden of Security Robert Wolfe
- Deputy Warden of Inmate Services Joe Shiffer
- Director of Administration Tammy Moyer
- Inmate Services Supervisor Toni Warfel
- Executive Assistant Ashley Garcia
- PREA Compliance Manager Alexandria Miller
Introductions were made, and the audit schedule was discussed. I provided an overview of the audit process and how compliance could be accomplished, and how I utilize the PREA Audit Report for Adult Prisons and Jails as a guide to ensure that all aspects of each standard are met. This assurance is made by triangulation of the policies and documentation reviewed, the Auditor’s personal observations during the onsite audit, and through the information received during the interviews. This triangulation is accomplished by ensuring that the policies and documentation, are compliant with the PREA Standards, and the personal observations and interviews confirm the procedures outlined in the policy are in daily practice at the facility. I explained that the policies and procedures reviewed are in compliance with the standards, and I will evaluate if they are put into daily practice at the facility.

Immediately following the meeting, a facility tour was conducted. During the tour, I had the opportunity to view all areas of the facility; no areas were not toured. I interacted with both staff and inmates, as well as observed the interaction between the staff and inmates. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. While on the housing units, I observed the related PREA information, Audit Posting, and applicable policies and procedures posted in the common areas, which are accessible to all inmates. These postings were further observed in common areas throughout the facility. While conducting the tour, I reviewed log books on the housing units.

The inmate interviews began immediately following the facility tour. Interviews were conducted in various private locations throughout the facility. The areas provided privacy for the interviews. The inmates were randomly selected from inmates in the housing unit. During this process, I interviewed inmates in the following categories:

During the interview process, several targeted categories of inmates were not being housed at the facility. I conducted the interviews with all inmates, in the same manner, a preamble to the interview was related to the inmate explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No inmates refused to speak with me. All inmates were asked questions related to the Random Inmate Interviews, and if they were in a targeted category, I asked those additional questions. During the interviews, I utilized a copy of the initial PREA information received by inmates, Inmate Handbook, and Screening form to visually stimulate the inmate’s recollection of their initial intake process.
Upon completion of the inmate interviews, the staff interviews were conducted throughout multiple locations in the facility, these interviews were all conducted in private. These interviews were conducted on both days of the audit. The facility was currently working two shifts; interviews were conducted on both shifts. During the process, I interviewed staff in the following categories:

I conducted the interviews with all staff in the same manner, a preamble to the interview was related to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me. All staff, except for administration, were asked questions related to the Random Staff Interviews, and if they were in a targeted category. They were then asked questions pertaining to that area. During the interviews, I utilized a copy of any documentation related to a specifically targeted interview. These items were used to visually stimulate the staff’s recollection on the daily practices at the facility.
The following is a list of documentation reviewed during the Pre-Audit, Onsite Audit and Post Audit Phases, with the applicable standard to each.

At the conclusion of the Onsite Audit, an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion.

During the onsite audit portion, I found the staff to be extremely respectful and very knowledgeable in not only sexual safety but the overall safety of the facility. The interviewed inmates confirmed this and felt that the facility is safe overall.

During the staff interviews, I found that the staff took ownership not only of the immediate areas they worked in but the facility overall. This staff attitude helps in creating a respectful culture at the facility.

Post Audit:

Upon completion of the Pre-Audit and Onsite Audit phases, I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by triangulation of the policies and documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all of these factors into account, I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Prisons and Jails.
Facility Characteristics

The Lancaster County Prison is the Countywide facility for Lancaster County Pennsylvania. The facility is located on East King Street in Lancaster City. The facility was originally built in 1851 and renovated in 1972.

Access to the facility:

Access to the facility is controlled by Correctional Officer Staff. All entrants to the facility must successfully pass through a metal detector; they are further subject to search if deemed appropriate.

Housing Units:

The facility is located within a single 4 story building and consists of 14 housing units. The housing units consist of 11 multi-occupancy cell housing units, 2 single cell housing units, and 1 dormitory-style housing unit. The majority of the multi-occupancy housing units are constructed in the same manner; they are two-tiered with a large common area in the center. An outdoor recreation yard is connected to these units. The toilets in these units are located in the cells, offset from the window in the door, which restricts viewing while toileting. The showers are located in an area away from the cells and have dual shower curtains to prevent cross-gender viewing while showering.

The female single cell housing unit has toilets in the cells, although the doors are an open grate construction. The staff assigned to the housing unit are female, although the male staff can work in the control room, which is completely out of view of the cells. The showers are in the dayroom area but they are concealed behind curtains that completely block the view of the inmates showering.

The male single cell housing unit has the toilets in the cells, which are out of view. The showers have curtains and block the view of cross-gender staff. The open dormitory housing unit has curtains for both the toilets.

All of the housing units have phones that are accessible to inmates. They also have PREA posters in English and Spanish, that provide the reporting number through the Pennsylvania Department of Corrections, and the YWCA of Lancaster County, which provides victim advocacy.

All housing units have several cameras; all camera views were viewed; no views show any cross-gender viewing issues.

The commitment area of the facility has various cells that are utilized to house inmates while undergoing the intake process. These cells are constructed in a manner that provides privacy to inmates while toileting. The inmates are in this area for a short period of time before being transferred to a housing unit.

All inmate bathrooms throughout the facility have curtains or operational/non-locking doors which provide the inmate's privacy while toileting.

Staff offices are located throughout the facility in various locations.

EVIDENCE OF COMPLIANCE:

The Lancaster County Prison, Prison Rape Elimination Act Policy E-3 Dated: July 5, 2016 dictates the agency's mandated zero tolerance toward all forms of sexual abuse and sexual harassment and outlines the agency's approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

Lancaster County has appointed a PREA Coordinator who is above the PREA Compliance Managers, one at the Prison and one at the Youth Development Center. The Prison PREA Compliance Manager oversees all operational aspects of the PREA Standards at the Prison, and the efforts to comply with the PREA Standards. During her interview, she related that she has sufficient time and authority to develop, implement, and oversee efforts to comply with the PREA standards. I found the PREA Compliance Manager to be well versed in the PREA Standards and their daily application to the operations at the Prison. The Lancaster County PREA Coordinator is in the Administration at the county level. During the onsite audit, I found that the PREA Compliance Manager works directly with the Warden and Deputy Wardens regarding any issue with the PREA Standards.

During the interviews at the facility, I was informed that the PREA Compliance Manager is always accessible to answer questions and provide advice on PREA related issues. I was also advised that she will spot check the facility to ensure that they are consistent in the application of the policies that apply to PREA.

Prior to the onsite audit, all documentation was reviewed, during the onsite portion, I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and inmates.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the facility's overall commitment to sexual safety.
Standard 115.12: Contracting with other entities for the confinement of inmates

115.12 (a)

- If this agency is public and it contracts for the confinement of its inmates with private agencies or other entities including other government agencies, has the agency included the entity’s obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) ☒ Yes ☐ No ☐ NA

115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates OR the response to 115.12(a)-1 is "NO".) ☒ Yes ☐ No ☐ NA

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

EVIDENCE OF COMPLIANCE:

The facility does not hold any contracts with other entities for the housing of inmates. The facility does hold a Memorandum of Understanding with Chester County Prison for the housing of juveniles if needed. Chester County Prison is compliant with the PREA Standards a final report was issued for the facility by DOJ Certified PREA Auditor Kurt Pfisterer on December 7, 2018.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

**EVIDENCE OF COMPLIANCE**

The facility has developed a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the aforementioned policy and 2019 staffing plan and development process. I further questioned the staff on the policy and the ability to fully staff the facility at all times. I was informed that the facility would fill posts with overtime if needed to be at the full complement.

The staffing plan was completed and reviewed by the Warden and PREA Compliance Manager on May 16, 2019.

During the interviews with the administration at the facility, I confirmed a daily review of the staffing at the facility. The administration meets on a regular basis; this includes the Warden and Deputy Wardens. During this meeting, the overall facility operations are discussed to include staffing.

The staffing plan has not been deviated from within the last 12 months. I confirmed during staff interviews that any posts would be filled with overtime if needed.

The administration meets on a regular basis to review incidents that have occurred at the facility, as well as discussing normal facility operation. During these meetings, they discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.

The facility has implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds take place during all shifts at the facility. The facility has a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring. I further confirmed the rounds are occurring during the staff and inmate interviews as well as reviewing the logs generated by the housing unit officers.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.
## Standard 115.14: Youthful inmates

### EVIDENCE OF COMPLIANCE:

At the time of the onsite audit, the facility was housing three juvenile offenders, who were charged as adults. The juveniles were housed in a housing unit by themselves and under the direct supervision of a
Correctional Officer. The facility policies further state that when the juveniles are off the housing unit, and within sight and sound of adult inmates, they are under direct supervision. The juveniles are offered recreation on a daily basis; this occurs in the recreation yard connected to the unit.

I interviewed the three juvenile inmates. They all confirmed that they are housed separate from the adult inmates, are allowed recreation time every day, and are not in contact with adult inmates unless they are under direct supervision. I confirmed through the inmate and educational staff that the juveniles attend school and are in a room with adults. They are under direct supervision at all times. Lancaster School District is providing juvenile education.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

**Standard 115.15: Limits to cross-gender viewing and searches**

### 115.15 (b)

- Does the facility always refrain from conducting cross-gender pat-down searches of female inmates in non-exigent circumstances? (N/A here for facilities with less than 50 inmates before August 20, 2017.) ☐ Yes ☐ No ☒ NA

- Does the facility always refrain from restricting female inmates’ access to regularly available programming or other out-of-cell opportunities in order to comply with this provision? (N/A here for facilities with less than 50 inmates before August 20, 2017.) ☐ Yes ☐ No ☒ NA

### 115.15 (c)

- Does the facility document all cross-gender strip searches and cross-gender visual body cavity searches? ☒ Yes ☐ No

- Does the facility document all cross-gender pat-down searches of female inmates?  
  ☒ Yes ☐ No

### 115.15 (d)

- Does the facility implement a policy and practice that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks? ☒ Yes ☐ No
Does the facility require staff of the opposite gender to announce their presence when entering an inmate housing unit? ☒ Yes ☐ No

115.15 (e)

Does the facility always refrain from searching or physically examining transgender or intersex inmates for the sole purpose of determining the inmate’s genital status? ☒ Yes ☐ No

If an inmate’s genital status is unknown, does the facility determine genital status during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner? ☒ Yes ☐ No

115.15 (f)

Does the facility/agency train security staff in how to conduct cross-gender pat down searches in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? ☒ Yes ☐ No

Does the facility/agency train security staff in how to conduct searches of transgender and intersex inmates in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? ☒ Yes ☐ No

Auditor Overall Compliance Determination

☐ Exceeds Standard (*Substantially exceeds requirement of standards*)

☒ Meets Standard (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

☐ Does Not Meet Standard (*Requires Corrective Action*)

**EVIDENCE OF COMPLIANCE:**

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and inmate interviews, as well as a review of the policy. I also confirmed that the facility had not conducted a search under these circumstances.

The facility only assigns the same gender staff to same-gender housing units, with the exception of the control room on one of the female housing units. This control room is out of view of the cell area. This practice greatly reduces the risk of unintentional cross-gender viewing.
The above policies outline procedures and practices that enable inmates to shower, perform bodily functions, and change clothing without a nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The policies further dictate that staff of the opposite gender announce their presence when entering an inmate housing unit. These practices were confirmed during the staff and inmate interviews as well as during the facility tour when I observed the announcements taking place. The toilets in the celled housing units are offset from the window in the door, which restricts viewing while toileting. The showers are located in an area away from the cells and have dual shower curtains to prevent cross-gender viewing while showering. The female single cell housing unit has toilets in the cells, although the doors are an open grate construction. The staff assigned to the housing unit are female, although the male staff can work in the control room, which is completely out of view of the cells. The showers are in the dayroom area, but they are concealed behind curtains that completely block the view of the inmates showering. The male single cell housing unit has the toilets in the cells, which are out of view. The showers have curtains and block the view of cross-gender staff. The open dormitory housing unit has curtains for both the toilets and showers.

The facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. If the inmate’s genital status is unknown, it is determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff and medical interviews.

The facility has trained security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed by reviewing the provided training materials. I further verified this training during staff interviews.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

**Auditor Overall Compliance Determination**

- ☐ Exceeds Standard *(Substantially exceeds requirement of standards)*
- ☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*
- ☐ Does Not Meet Standard *(Requires Corrective Action)*

**EVIDENCE OF COMPLIANCE:**

The facility has taken appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the facility’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to inmates in these categories in the policy. The facility utilizes the services of Propio Language Services for interpretation. I further confirmed during interviews with intake staff, counselors that if an inmate was blind, they would read the information to them, cognitive/intellectual disabled inmates would have the information explained to them, and deaf inmates would be given the information to read, and confirmation would be in writing.

The facility has taken steps to ensure meaningful access to all aspects of the facility’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The facility has bilingual staff, and utilize the services of the Propio Language Services for foreign language interpretation. This was confirmed through staff interviews and policy review.

The facility does not rely on inmate interpreters, inmate readers, or other types of inmate assistants. The interviewed facility investigator is aware of the approved interpreters and confirmed during their interview that they utilize these services.

During the inmate interviews, I interviewed inmates with Cognitive Disabilities. All of these inmates related that the staff further explained the sexual abuse and sexual harassment policies, and ensured that the inmates understood the reporting avenues.
After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

EVIDENCE OF COMPLIANCE:

The facility has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The facility has developed a hiring practice where they utilize the PREA Employee Disclosure Statement to ask about all prior activities that involve sexual abuse; this form covers all behaviors enumerated in the standard. These questions are asked of all potential employees, contractors, and volunteers. I confirmed the practice during interviews and review of 25 personal files.

During the documentation review and review of personnel files, I found that this process is also being utilized in the promotion system throughout the agency. This was further confirmed through agency level interviews and interviews of promoted personnel.

The agency has also implemented a background investigation process for all new employees, contractors, and volunteers. The background investigations are being conducted as per policy. During the review of personnel files, I ensured that the background checks were being completed.

The facility conducts a Criminal Clearance and Child Abuse Clearance every two years; this information is documented in the NCIC log and personal files.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.18: Upgrades to facilities and technologies

115.18 (a)

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

EVIDENCE OF COMPLIANCE

The facility has made no substantial expansion to this facility nor is any planned. During the interviews, I confirmed that if any expansion or acquisition of facilities takes place, the overall security and safety is taken into consideration, including the sexual safety of the inmates.

The facility installed cameras during the previous PREA audit, which the auditor requested in the Corrective Action Plan. The facility is planning a complete camera upgrade in the future, the PREA Compliance Manager and Administration related that sexual safety and overall safety would be taken into consideration when considering camera placement.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency is responsible for the administrative and criminal investigations of all sexual abuse and sexual harassment incidents, any criminal investigation of a staff member is conducted by the Lancaster City Police Department. These investigations are initially responded to utilizing a team approach, where the administration, medical, and mental health will initially be notified. The facility investigator will respond to conduct the investigation. The investigator is a sworn law enforcement officer and is highly trained in evidence collection and identification. I reviewed the training materials utilized and interviewed the investigator. I found that he follows the evidence protocols outlined in the policy, and is well versed in evidence identification and collection.

The facility would utilize a SANE from Lancaster General Hospital and victim advocacy from the YWCA of Lancaster County, Northwest Domestic Crisis Service.

The protocols outlined in the policies are developmentally appropriate for youth and exceed nationally accepted standards.

The aforementioned victim advocates are available to the victim during the forensic medical examination process, the investigatory interviews, and they provide emotional support, crisis intervention, information, and referrals.

It should be noted that the facility has not had any allegations of Sexual Abuse nor Sexual Harassment, where these services were utilized within the last 12 months.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

The agency investigates all allegations initially and will refer all criminal investigations of staff members to the Lancaster City Police Department. I verified that the investigative procedure is published on the facility’s website.

The facility has policies in place that govern the investigative process. This was confirmed during policy review and investigator interviews.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The facility provides training to all employees on the areas enumerated in this standard. I reviewed the training curriculum and materials; I found that they address all areas. I further confirmed the training during the staff interviews and the review of training records. The employees receive initial training and annual updates. It was confirmed during staff interviews that they also receive updates during roll calls.

All employees receive training on both genders and youthful inmates. This was confirmed during a review of training materials and during staff interviews.

The employees are verifying the receipt of the training through a signature; this was verified during the review of the sample signature logs.

All staff at the facility are provided with a laminated card that outlines the required response to a PREA incident. Several of the interviewed staff showed me their cards during the interview process.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

This was confirmed during the volunteer and contractor interviews at the facility. The facility has trained 296 volunteers and contractors to date.

The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates. At a minimum, they are notified of the agency’s zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents.

The agency maintains all documentation confirming that volunteers and contractors understand the training they have received. This documentation is maintained; this was confirmed during the review of the volunteer and contractor acknowledgment forms.
After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

#### EVIDENCE OF COMPLIANCE

During the intake process, inmates receive information explaining the agency’s zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. The intake officer completes the PREA Inmate Orientation Form and forwards to the PREA Counselor. This was confirmed during the inmate and staff interviews; this information is also located in the inmate handbook. I further confirmed this by reviewing the completed forms.

The inmates receive an in-depth education where they are shown a video on PREA and sign part 2 of the PREA Inmate Orientation Form. I confirmed with the counselors and the PREA Compliance Manager that if the inmate did not understand something, they would explain it to them in a way they understood. All inmates interviewed related that they received the education and understood the facility zero tolerance policy and how to report an allegation.

The facility provides inmate education in formats accessible to all inmates; this includes inmates who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. The facility provides materials to inmates in Spanish; they also have designated staff who can provide an interpretation of other languages. The PREA Counselor or Treatment Counselors would provide education to other individuals if needed.
The facility has all key information on the zero-tolerance policy and reporting avenues provided through signage placed throughout the facility. I viewed this signage during the facility tour. I further confirmed that the signage has been in place during the inmate and staff interviews.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency is responsible for both the administrative and criminal investigations of all sexual abuse except staff criminal investigations. The facility investigations are conducted by the facility investigator and the PREA Compliance Manager. The facility investigator is a sworn law enforcement officer and is highly trained in conducting criminal investigations. The training they have received includes the use of Miranda and Garrity warnings, techniques for interviewing sexual abuse victims, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. This was confirmed during the investigator interviews, investigation review, and policy review.

The staff criminal investigations would be conducted by the Lancaster City Police Department.

The facility has trained several Sergeants as administrative investigators. They, along with the Facility Investigator and PREA Compliance Manager, attended a training course provided by me through the Pennsylvania Prison Wardens Association. This training was originally created to train the Pennsylvania Department of Corrections Investigators.

The agency documents all training attended by the investigators. This was confirmed during the interviews with the investigators, as well as a review of the training records.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

All full and part-time medical and mental health care practitioners have been trained on the following:

- How to detect and assess signs of sexual abuse and sexual harassment;
- How to preserve physical evidence of sexual abuse;
- How to respond effectively and professionally to victims of sexual abuse and sexual harassment; and
- How and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

This was confirmed by reviewing the training materials utilized by Prime Care, the contracted medical provider. I further interviewed medical and mental health staff; they confirmed receiving the training.

The medical staff at the facility do not conduct sexual assault examinations.

The medical and mental health care practitioners also receive the training mandated for employees under § 115.31 or for contractors and volunteers under § 115.32, depending upon the practitioner’s status at the facility. This was confirmed during the review of training rosters at the facility. I also confirmed this training with the medical and mental health staff during interviews.

Auditor Overall Compliance Determination

- ☒ Exceeds Standard (Substantially exceeds requirement of standards)

- ☐ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

- ☐ Does Not Meet Standard (Requires Corrective Action)

EVIDENCE OF COMPLIANCE

All inmates are initially assessed during the intake process, which is completed upon arrival at the facility. The inmates are asked questions during the initial intake process about overall safety. The inmates are then screened by medical personnel who ask specific PREA related questions which cover all topics enumerated in the standard. The medical staff have the ability to immediately task for a follow up with mental health or will notify the security staff of any concerns. The inmates then meet with a treatment counselor within 72 hrs. and again are screened utilizing the PREA Risk Assessment Tool, if any issues arise, they contact the PREA Compliance Manager.

The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during a review of the screening tool and interviews with both staff and inmates.

The facility is reassessing all inmates within 30 days of arrival, this reassessment is being conducted by the Treatment Counselors, and they are taking into considerations all information available to them at the time of reassessment. During the Treatment Counselor interviews, they confirmed that they meet with each inmate every 30 days to reassess them. This was further confirmed during the inmate interviews.
The facility would reassess an inmate’s risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the inmate’s risk of sexual victimization or abusiveness. This was confirmed during the Treatment Counselor interviews.

Inmates are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during the review of the screening tools and during the staff and inmate interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools is only available to treatment staff, medical, and administration.

The inmates are constantly being reassessed by their assigned counselors. All counselors interviewed related that they spend time daily on their assigned blocks to interact with the inmates. This interaction provides them the opportunity to personally see the inmates, and make themselves available to them.

After a careful review of all documentation, and the information received during facility interviews, I found that the agency substantially exceeds the requirements of this standard and all provisions.

Auditor Overall Compliance Determination

☒ Exceeds Standard *(Substantially exceeds requirement of standards)*

☐ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

**EVIDENCE OF COMPLIANCE**

The facility utilizes the information from the screening and reassessment to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. This was confirmed during a review of the policy, and I confirmed these procedures during staff and inmate interviews.

The agency makes all of these determinations on an individualized basis; this ensures the safety of each inmate. This was confirmed during policy review, and staff and inmate interviews.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate’s health and safety and whether the placement would present management or security problems. I also confirmed that the inmate’s own views would be taken into consideration during these decisions. Through policy and interviews, I confirmed that a transgender inmate would be given the opportunity to shower separately from other inmates.

I confirmed during interviews with the Treatment Counselors that placement and programming assignments for each transgender or intersex inmate would be reassessed at least twice each year. This is also addressed in the policy.

The facility does not place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status. This was confirmed during staff interviews, as well as inmate interviews, several inmates at the facility interviewed identified as gay.

After a careful review of all documentation, and the information received during facility interviews, I found that the agency substantially exceeds the requirements of this standard and all provisions.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

EVIDENCE OF COMPLIANCE

The facility has a policy prohibiting the placement of inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made. This policy addresses all provisions in the standard; the language in the policy meets all aspects of the standard.

This facility has had no incident where they have segregated an inmate due to being at high risk of sexual victimization.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)

☐ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

EVIDENCE OF COMPLIANCE

The facility provides the inmates the information on reporting in the inmate handbook and pamphlet provided at intake and through signage throughout the facility. The inmates can report directly to any staff, through the PREA reporting line to the PADOC, or to the YWCA. The instructions for the usage of these reporting avenues is extremely comprehensive, and the step by step usage of the reporting avenues is provided in all written materials both posted and given to the inmates. During the interviews with both staff and inmates, I confirmed that they were aware of the reporting avenues and that they can remain anonymous.

The facility website further instructs third parties on how to report. This was confirmed by viewing the agencies website.

The staff interviews related that they understood the policy that states that staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

The facility provides a method for staff to privately report sexual abuse and sexual harassment of inmates. Staff can report outside of the chain of command, or directly to the Warden.

I found during the inmate interviews that the inmates who were interviewed felt that if something was happening, they would feel comfortable telling a staff member at the facility. This confidence in utilizing
this reporting avenue shows the overall culture at the facility. Although this statement may not be true for all inmates, the agency has provided so many different reporting avenues that an inmate should feel comfortable with one of them.

After a careful review of all documentation, and the information received during facility interviews, I found that the agency substantially exceeds the requirements of this standard and all provisions.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

EVIDENCE OF COMPLIANCE

The audited facility does not have a grievance policy that covers sexual abuse and sexual harassment. The PREA Compliance Manager stated that if a grievance was filed, it would immediately be taken out of the grievance process and reported to the facility investigator.

After a careful review of all documentation, and the information received during facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

EVIDENCE OF COMPLIANCE

Access to outside confidential support services is outlined in the facility policies and procedures. The inmate would have the ability to utilize the services provided through the YWCA of Lancaster County. The services that the inmates would receive are the same as the level received in the community.

Through interviews, I further established that follow up mental health care would be provided by the facility for an inmate who was involved in an incident.
All of the information required under this standard and all provisions is provided to the inmates; this was verified through review of the documentation and interviews.

I interviewed several female inmates who reported incidents, they informed me that they were given the information for the YWCA, and also confirmed that the information is posted on the housing units.

After a careful review of all documentation, and the information received during facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

The phone number provided is the PADOC reporting line.

The facility has third-party reporting avenues posted in areas in the facility where they can be viewed by visitors.
After a careful review of all documentation, and the information received during facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*
☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*
☐ Does Not Meet Standard *(Requires Corrective Action)*

EVIDENCE OF COMPLIANCE

The agency has established a policy that meets the provisions of this standard. The agency has identified the facility designated monitors to monitor the inmate or staff member for alleged retaliation. The Lancaster County Prison PREA Sexual Abuse Retaliation Monitoring Form is utilized to document the monitoring.

Policy
Policy states the following:

PREA Retaliation Monitoring Procedure

Inmate monitoring will be conducted by the PREA Counselor. Any inmate that reports a PREA Incident or is involved with a PREA investigation as a witness will be monitored to ensure that they are not being retaliated against by any inmates or staff members in any manner verbal or written. The PREA Counselor will monitor inmate disciplinary records, housing, or program changes. The inmate will be interviewed twice a week for the first 4 weeks and then again, one time per week for the next 8 weeks. After the initial 90 days, the monitoring will be terminated unless it is deemed necessary for a continuation of 30 days. Lancaster County Prison will terminate the monitoring if a determination is made that the allegation is unfounded. Retaliation monitoring forms will be kept to verify the contact along with any outcome the interview may reveal. Reports will be maintained in the inmate behavioral file. Any findings of retaliation will be reported immediately to the Warden, Deputy Warden of Operations and Deputy Warden of Inmate Services, Major of Operations, Corrections Investigator, PREA Coordinator, and the PREA Compliance Manager.

Staff monitoring will be conducted by the Shift Commander. Any staff member that reports a PREA Incident or is involved in a PREA investigation as a witness will be monitored to ensure they are not retaliated against by any other staff member in any manner, written or verbal. The Shift Commander will monitor negative performance reviews or reassignments of staff. The officer will be interviewed twice a week for the
first 4 weeks and then again, one time per week for the next 8 weeks. If at any time the allegation is determined to be unfounded, the obligation to monitor will terminate. Reports will be written to verify the contact along with any outcome the interview may reveal. Staff reports will be maintained in the staff members file. Any findings of retaliation will be reported immediately to the Warden, Deputy Warden of Operations and Deputy Warden of Inmate Services, Major of Operations, Corrections Investigator, PREA Coordinator, and the PREA Compliance Manager.

☐ Does Not Meet Standard *(Requires Corrective Action)*

EVIDENCE OF COMPLIANCE

During the policy review, I established that the facility has policies in place that address all provisions of this standard. More importantly, during the review of facility investigations, and staff interviews I found they understand the provisions of the standard and are applying them throughout the investigations.

The Lancaster City Police and Facility Investigator are highly trained sworn law enforcement officers who will conduct both in-depth administrative investigations as well as criminal investigations. After reviewing the investigations, I was impressed with the consistency of the overall investigation process.

During the review of the investigation reports at this facility, I found that all substantiated allegations that violated criminal law were sent for a prosecutorial decision.

After a careful review of all documentation, and the information received during facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.
